

Na každé dominové kostce vybarvi tu polovinu,
na které je více obrázků.

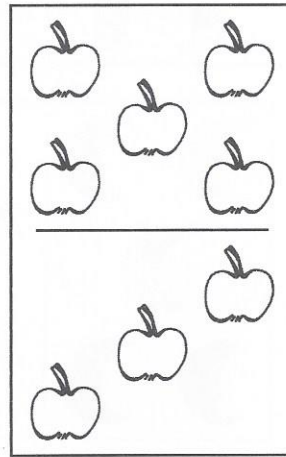

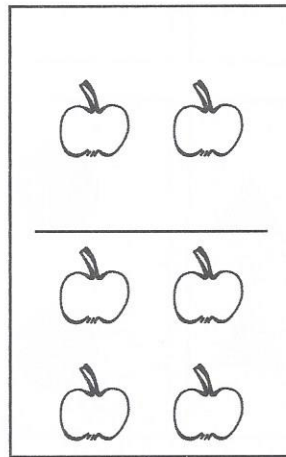

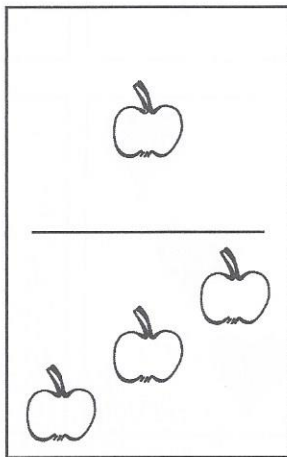

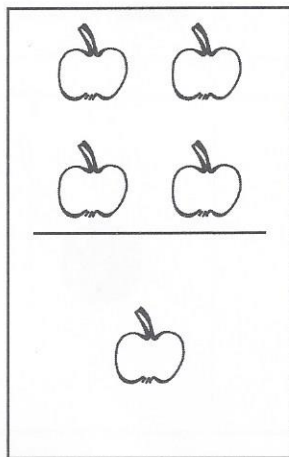

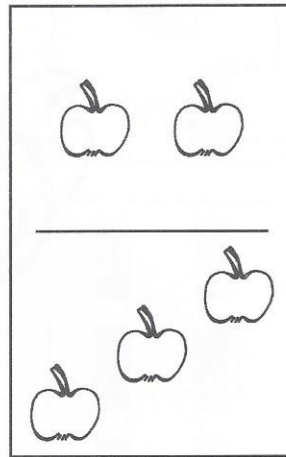

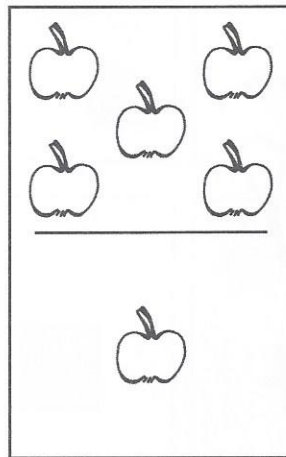

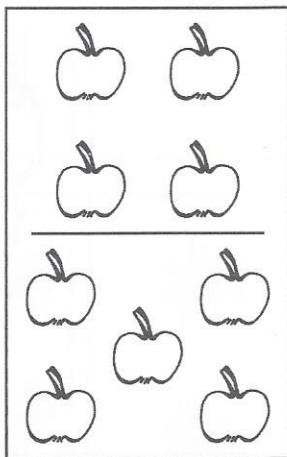

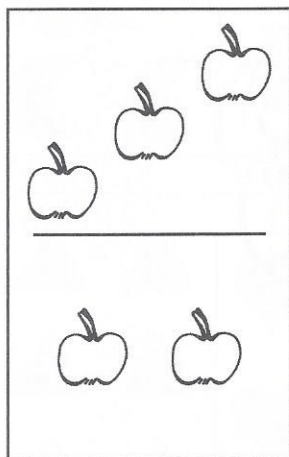

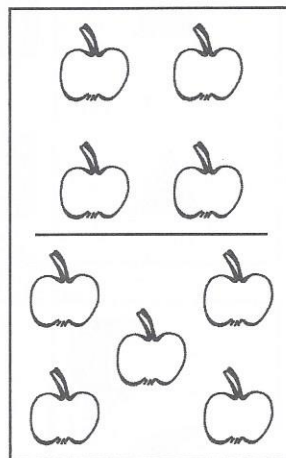

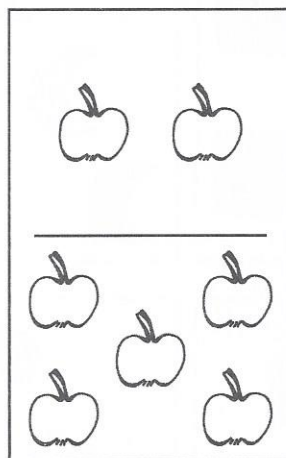

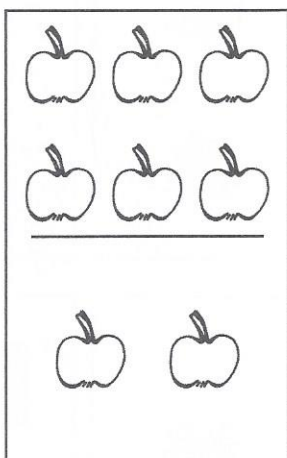

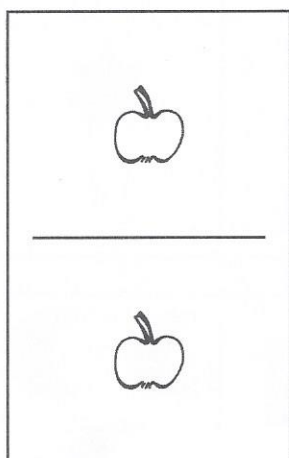

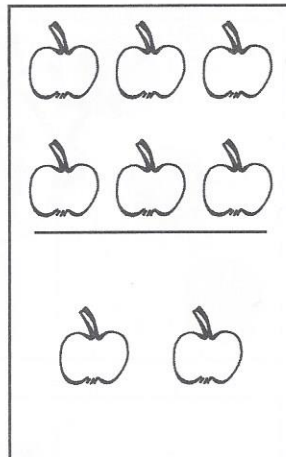

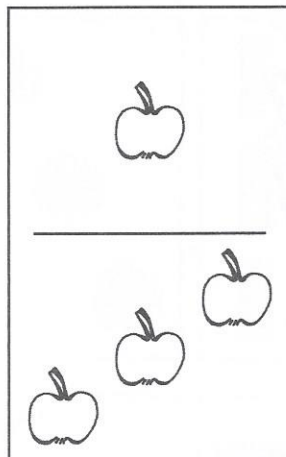

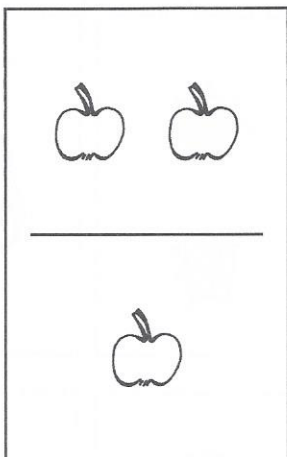

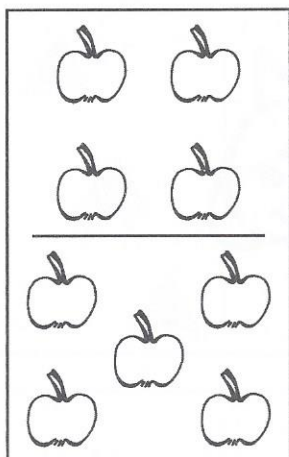

Ke každé hlavičce z pohádky dokresli tělíčko. Hotové figurky potom vybarvi.

Vybarvi ty dominové kostky, které mají v dolní polovině více jablíček než v polovině horní. Spočítej, kolik kostek je vybarvených a kolik zůstalo bílých. Kterých je víc?

V horní skříní jsou umístěny různé předměty, které nejdřív pojmenuj. V ostatních skříních jedna nebo dvě věci chybí. Zjisti, které to jsou a dokresli je.
